Veterans in the Classroom

Veterans' Speaker Program and Oral History Project

“Collecting the oral histories of American veterans is a critical task in preserving our history and an urgent need as we enter the 21st century. These histories

Students Aaron Palmer and Eddy Albrecht interview veteran Jim Cunningham, a Sioux Falls, Iowa, VFW post member.

will be an invaluable resource for future generations and will become part of the nation's vast historical record that the Library of Congress has preserved for 200 years.”

James H. Billington
Librarian of Congress

More than 19 million war veterans are living in the United States today (including 3,400 from World War I and 6 million from World War II), but almost 1,500 die each day. That is why it is so important to preserve veterans' memories and share them with future generations.

What can teachers do:

- Invite VFW members to speak to your students about their military experiences in WWII, Korea, Vietnam, Gulf War and recent conflicts.
- Have your students interview the veterans and submit their audio or videotapes to the Library of Congress Veterans History Project.

What resources are available to help me?

The Veterans History Project team at the Library of Congress has prepared a set of guidelines and forms that should be followed if you choose to participate.

To contact the Veterans History Project, please visit their website at <http://www.loc.gov/folklife/vets>.

Project kits available at:

Veteran's Day Lab

For the last two years, I have gone to a local VFW meeting and invited the local members to accompany my students on a field trip to the Legion of Valor Museum in Fresno, Calif. This year, though, we had a Veterans' Lab Day. World War II veterans came to the school and sat down in small groups at different tables.

Students rotated from table to table to visit each veteran and to view the various memorabilia the veterans brought to the classroom. The students only had about 15-20 minutes with each veteran, but I think they went away deeply touched and with a new respect for what these men had gone through and that they survived. More than 200 students participated in our two-day WWII Veterans Lab Day.

Write the Troops

Numerous educators have shared their positive experiences with how students develop writing

skills by corresponding to military personnel who are alumni of the local high school (check with guidance counselors for contact information) or related to a member in the local community. One suggestion is for students to compose a monthly letter from the entire

class. This way the soldier(s) can easily respond. In addition to the letter, a copy of the local newspaper and popular magazines can be included. Some classrooms have linked up with a VFW Post or Auxiliary who have adopted a unit and included the

letter(s) with items being sent. Check your telephone directory for the local VFW Post phone number. Ask to speak to the Post commander. You may also contact the state VFW headquarters for assistance at http://www.vfwkc.org/post_location/state.asp.

Respecting Old Glory

Use the VFW's Ten Short Flag Stories
http://www.vfw.org/yourtown/you_FlagHistory.htm.

View *Flag Etiquette guidelines*
http://www.vfw.org/yourtown/you_FlagEtiquette.htm to teach your students about the history of our flag and how to respect the U.S. flag.

Do you have an idea for a patriotic activity? We want your ideas!

Submit your own classroom activity (describe in 150 words or less and provide us your name, grade level, school name, location and telephone number) to <mailto:tbeauchamp@vfw.org>.
